Proceedings of the Seventh International Congress on Invertebrate Reproduction University of California, Santa Cruz, 5–11 August 1995 (Part II)

Contents

Gene action in early development

1 Cell-specific gene regulation in early molluscan development
W.G.M. Damen, A.H.E.M. Klerkx and A.E. Van Loon

11 Gene expression during early embryogenesis of sea urchin: the histone and homeobox genes
G. Spinelli, M. Di Bernardo, F. Palla, L. Anello, P. Oliveri, R. Melfi, C. Bonura, R. Russo and L. Di Gaetano

21 Manipulating cell fates in the sea urchin embryo
W.H. Klein, C.-A. Mao, L. Gan, C.-K. Chuang and A.H. Wikramanayake

Reproduction in the deep sea

31 Paraspermatogenesis in gastropod molluscs
A.N. Hodgson

Dichotomous spermatogenesis

39 Centrosome structure is very similar in eupyrene and apyrene spermatocytes of *Ephestia kuehniella* (Pyralidae, Lepidoptera, Insecta)
K.W. Wolf

Crustacean endocrinology

47 Roles of neurotransmitters in regulating reproductive hormone release and gonadal maturation in decapod crustaceans
M. Fingerman

55 Sexual differentiation in decapod crustaceans: role of the androgenic gland
A. Sagi, E. Snir and I. Khalaila

63 Methyl farnesoate and the effect of eyestalk ablation on the morphogenesis of the juvenile female spider crab *Libinia emarginata*
H. Laufer, P. Takac, J.S.B. Ahl and M.R. Laufer

Male physiology and spermatogenesis

69 The ecdysoid RH5849 induces yolk polypeptide synthesis in male flies
A. De Loof, Z. Wei, R. Huybrechts, J. Gijbels and P. Verhaert

75 Nucleoside uptake in male germ cells of the polychaete *Nereis virens*
G.F. Geier and U. Hoeger

87 Spermatogenesis and sperm structure of the hydrothermal vent prosobranch gastropod *Lepetodrilus fucensis* (Lepetodrilidae, Mollusca)
A.N. Hodgson, J.M. Healy and V. Tunnicliffe

99 Dissociation of eusperm bundles by acids, especially by succinate accumulated in the spermatophore of the silkmoth, *Bombyx mori*
M. Osanai and M. Isono

Settlement, recruitment, and juveniles

109 Induction of settlement and metamorphosis of Cnidarian larvae: Signals and signal transduction
T. Leitz

123 Recruitment in the Holothurian *Cucumaria frondosa* in the Gulf of Maine
D.E. Medeiros-Bergen and E. Miles

135 Reproductive cycle and feeding periodicity in the starfish *Astropecten brasiliensis* in the Cabo Frio upwelling ecosystem (Brazil)
C.R.R. Ventura, A.P.C. Falcão, J.S. Santos and C.S. Fiori

143 Population recovery of the sea urchin *Lytechinus variegatus* in a seagrass flat (Araruama Lagoon, Brazil): the role of recruitment in a disturbed environment
A.O.R. Junqueira, C.R.R. Ventura, A.L. P.S. De Carvalho and A.J. Schmidt

Life histories

151 Visualization of the developing serotonergic nervous system in the larvae of the sea star, *Patiriella regularis* using confocal microscopy and computer generated 3-D reconstructions
F. Chee and M. Byrne

159 Modular metazoans: gonochoric, hermaphroditic, or both at once?
K. Wasson and A.T. Newberry

177 Reproduction in Zoanthidea (Anthozoa: Hexacorallia)
J.S. Ryland

189 Assessment of field fertilization success in the infaunal polychaete *Arenicola marina* (L.)
M.E. Williams, M.G. Bentley and J.D. Hardege

199 Storage tissue and reproductive strategy in *Lucina pectinata* (Gmelin), a tropical lucinid bivalve adapted to a reducing sulfur-rich, mangrove environment
L. Frenkiel, O. Gros and M. Moueza

Arthropod reproduction

211 Seasonal differences in methyl farnesoate esterase activity in tissues of the spider crab *Libinia emarginata*
P. Takac, J.S.B. Ahl and H. Laufer

217 Purification and characterization of vitellin from the ovaries of the shrimp *Metapenaeus ensis* (Crustacea: Decapoda: Penaeidae)
Y.W. Qiu, T.B. Ng and K.H. Chu

225 A putative juvenile hormone in a stink bug, *Plautia stali*: The corpus allatum produces and releases a JH-active product different from any known JHs *in vitro*
T. Kotaki

231 Mode of action studies of the acaricidal agent, epingaione
L.A.D. Williams, M.T. Gardner, P.D.A. Singh, T.L. The, C.K. Fletcher, L. Caled-Williams and W. Kraus

237 Germ cell cluster formation and cell death are alternatives in caste-specific differentiation of the larval honey bee ovary
K. Hartfelder and G. Steinbrück

251 Ontogeny of cephalic volatile patterns in queens and mating biology of the neotropical stingless bee, *Scaptotrigona postica*
W. Engels, E. Engels and W. Francke

257 Nuclear binding sites for juvenile hormone III in the male accessory reproducive glands of *Melanoplus sanguinipes*
S.M. Ismail and C. Gillott

263 Evidences of the extraglandular origin of two secretory proteins in the male accessory reproductive glands of *Chilo partellus* (Pyralidae, Lepidoptera, Insecta)
P.M. Ismail, S.M. Ismail and A. Dutta-Gupta

269 The axoneme is involved in the elongation of the spermatid nucleus of *Drosophila subobscura*
E. Hauschteck-Jungen, U. Bircher and S. Dubler-Hänggi

275 Hormonal regulation of protein synthesis in the nymphal and adult male accessory reproductive gland of *Locusta migratoria*
P.M. Ismail and C. Gillott

Oocyte maturation, fertilization, and development

285 Ultrastructural aspects of the germovitellarium of two prorhynchids (Platyhelminthes, Lecithoepitheliata)
A. Falleni

297 Evidence for a coelomic maturation factor controlling oocyte maturation in the polychaete *Arenicola marina* (L.)
G.J. Watson and M.G. Bentley

307 Temporal variation in gametogenic cycles of vesicomyid clams
S.E. Lisin, E.E. Hannan, R.E. Kochevar, C. Harrold and J.P. Barry

319 Hybridization and F1 backcrosses between two closely related tropical species of sea urchins (genus *Echinometra*) in Okinawa
L.M. Aslan and T. Uehara

325 The evolution of the female gonad in Platyhelminthes-Turbellaria: ultrastructural investigations
V. Gremigni

331 Contrasting breeding periodicity of nearby populations of the lugworm, *Arenicola marina* (Annelida, Polychaeta)
M.M. Dillon and D.I.D. Howie

337 Development of the hyaline layer around the planktonic embryos and larvae of the asteroid *Patiriella calcar* and the presence of associated bacteria
A. Cerra, M. Byrne and O. Hoegh-Guldberg
